WORK EXPERIENCE

Project Data Analysis Intern

Sustainable Business Network

Jan 2026 - May 2026

Boston, Massachusetts

- Consolidated and analyzed event survey and social media data across multiple channels, organizing findings into structured reports to support operational planning decisions.
- Examined social media engagement metrics across Facebook and Instagram, pinpointing highest-performing content types to inform future marketing strategy.

Corporate Sustainability and ESG Service Intern Consultant

Deloitte Touche Tohmatsu Limited

Oct 2024 - Aug 2025

Taipei, Taiwan

- Coordinated cross-functional workflows across 12 client engagements, managing timelines, documentation, and stakeholder communication to ensure on-track delivery of advisory deliverables.
- Verified data accuracy and disclosure integrity across 7 corporate sustainability reports, cross-referencing financial and operational metrics against source documentation to ensure compliance with GRI standards.
- Performed competitor benchmarking by analyzing financial metrics and governance structures across industry peers, delivering comparative analysis to support client advisory decisions.
- Synthesized market intelligence and ESG risk findings into executive-ready reports and presentations, supporting leadership decision-making

Environmental, Social and Governance Intern Consultant

Reanda M Y Wu & Co., CPAs

Jul 2024 - Aug 2024

Taipei, Taiwan

- Conducted carbon footprint verification and assurance engagements for 2 companies, validating emissions data accuracy and compliance with reporting standards.
- Developed ESG training materials and delivered 6-hour client training sessions, translating complex regulatory frameworks into actionable guidance for corporate stakeholders.

Sustainability Report Researcher

Veda International Corp.

Oct 2023 - Feb 2024

Taipei, Taiwan

- Extracted and categorized ESG disclosure data from 40 public companies across industries, systematically mapping governance practices, risk exposure, and reporting metrics into a structured analysis system.
